PROJECT

FYP-Sync – Final Year Project Management System

Final Year Project (FYP)

- FYP-Sync is a web-based system designed to streamline the management of final year projects (FYPs) for students, supervisors, and administrators in academic institutions.
- Efficient Admin Interface: Leveraged FilamentPHP to design a dynamic admin dashboard for data management.
- Dual Role Support: Lecturers can act as both supervisors (mentorship) and assessors (grading) under one login, managed via Laravel's role-permission system.
- **Tech Stacks** : Laravel, FilamentPHP, MySQL, Tailwind CSS
